

Legislative Link Update Week of February 17 – February 21, 2014

Thank you for continuing to participate in the Legislative Link program. This program is intended to connect you to the Legislature and keep you informed of the bills that may impact your neighborhoods. Through this program you will receive weekly emails summarizing the legislature's activities along with a list of bills we have identified as potentially impacting your neighborhoods. As always, if you have questions on a particular piece of legislation or simply want a refresher on the legislative process, the Glendale Intergovernmental Programs team is available to assist. If you have neighbors or friends that would like to join our mailing list please feel free to forward their contact information to our office.

Today marks the 40th day of the legislative session. To date, 1,295 bills, resolutions, and memorials have been introduced by the members of the House and the Senate. Monday, February 10th marked the deadline to introduce new bills, therefore no new bills will be introduced beyond this point, although the subject of bills can still be altered through strike everything amendments.

Today also was the last day to hear bills in their chamber of origin (i.e. House bills must have been passed by the full House and Senate bills must have been passed by the full Senate). This means that any bills that have not received a committee hearing and been passed by today will likely not be moving forward in the legislative process as standalone bills – although their provisions could always be amended on to other bills that are moving forward. For this reason, more bills than usual were scheduled for committee hearings this past week and you will see lots of bill activity highlighted in the tracking list.

One of the bills on our tracking list, HB 2196 which repeals a new law from last year that made numerous changes relating to election laws, was passed by both chambers via a substitution with an identical bill from the Senate and is now awaiting action by the Governor. This is the first bill on our list to pass the hurdle of being approved by both bodies and making it to the Governor's desk for consideration.

The following bills are scheduled for a committee hearing during the upcoming week:

- H2048: INSURANCE ADJUSTERS; PORTABLE ELECTRONICS
Hearing: Senate Finance (Wednesday 02/26/14 at 2:00 PM, Senate Rm. 3)

A person's reasonable belief that force is immediately necessary does not need to be the sole motivation for the person's threat or use of physical force or deadly physical force. A person who is lawfully in a place has no duty to retreat before threatening or using physical force or deadly physical force. The possibility of retreat cannot be considered in determining whether the use of force, or its extent, was necessary or whether the person who used force had a reasonable belief that the use was necessary. A person who presents evidence of justification and who is found guilty after a trial is authorized to file a motion for imperfect self-defense before sentence is imposed. If the court grants the motion, the sentencing must be mitigated as specified.

H2454: HUMAN TRAFFICKING; PROSTITUTION

Various changes relating to human trafficking. For cases where the minor is 15, 16 or 17 years of age, the minimum, presumptive and maximum sentences are increased for a person who commits child prostitution by causing a minor to engage in prostitution or financing, controlling or owning prostitution activity involving a minor. It is child prostitution to engage in prostitution with a minor who the person should have known, instead of only who the person knows, is 15, 16 or 17 years of age. The list of acts constituting aggravating circumstances for sentencing felony sex trafficking is expanded to include that the defendant recruited, enticed or obtained the victim from a shelter designed to serve victims of human trafficking, domestic violence or sexual assault, or runaways, foster children or the homeless. Child prostitution, sex trafficking, and trafficking of persons for forced labor or services are added to the list of acts that constitute "racketeering." If a person committed acts of prostitution as a direct result of being a victim of sex trafficking, it is an affirmative defense to prosecution for prostitution.

The owner of a business that is not a liquor licensee is authorized to enter into a management agreement in which an independent business acts as the manager and applies for and obtains an on-sale liquor license that authorizes the sale and service of spirituous liquor on the owner's premises. Effective July 1, 2018, the Department of Liquor Licenses and Control is authorized to issue a craft distiller license to any person meeting specified criteria, and requirements for craft distiller licensees are established. On application by two or more farm winery licensees, the Dept may approve a grouping of licensees at one location under a plan of alternating proprietorships if the wineries have received approval from the U.S. Alcohol and Tobacco Tax and Trade Bureau. The Dept is permitted to authorize a farm winery licensee to operate up to two remote tasting and retail premises under specified conditions. Session law specifies that current farm winery licensees do not qualify for the new requirements and may continue to operate under the previously issued licenses until January 1, 2019. The Dept is authorized to issue licenses that have been revoked or reverted in any county after July 1, 2014. Before the Dept issues a temporary special event license, a special event that is to occur at an otherwise unlicensed location must be approved by the county board of supervisors or municipal governing body. State agencies, boards and commissions are added to the list of entities that may obtain a government liquor license. Liquor licensee employees that are not directly involved in the sale or service of spirituous liquor or who are only involved in restocking are exempt from the requirement to take training courses approved by the Dept.
